

SKILL 3.02 TECHNICAL SPECIFICATIONS

The SKILL 3.02 has been designed to reduce oil transition, allowing the use of low-volume patterns.

Hardness	80
Radius of Gyration	2.58
Differential Radius of Gyration	0.009
Surface Roughness - Ra *	50 μin
Oil Absorption	Little to 0

*Measured at a sanding grit level of 500 Abralon by USBC. Shipped at 1500 grit.
